

# Helicopter Tours

by Flying M Air

Let us show you the Wickenburg area in a way no one else can—from the cockpit of a helicopter flying 500 feet above the ground. Our tours show off the natural and man-made features of this desert town, including volcanic rock formations, washes and rivers, slot canyons, mines, ghost towns, and the town itself.

## Share the View with a Friend or Two!

Our 2005 Robinson R44 Raven II helicopter makes it easy to share your adventure with one or two friends or family members. You'll enjoy features like high quality noise-reduction headsets, a voice-activated intercom system for effortless conversation with your companions, and bubble observation windows that expand your view. Every seat offers easy access, comfort, and a great view.
